PORCUPINE

To the Public.

WHEN I determined to discontinue the publication of *Porcupine's Gazette*, I intended to remain for the future, if not an unconcerned, at least, a silent spectator of public transactions and political events; but, the unexpected and sweeping result of a law suit, since decided against me, has induced me to abandon my lounging intention. The suit to which I allude, was an action of slander, commenced against me in the autumn of 1797, by Doctor Benjamin Rush, the noted bleeding physician of Philadelphia. It was tried on the 14th of December last, when "the upright, enlightened and impartial Republican Jury" assessed, as damages, *five thousand dollars*; a sum surpassing the aggregate amount of all the damages, assessed for all the torts of this kind, ever sued for in these States, from their first settlement to the present day. To the five thousand dollars, must be added the costs of suit, the loss incurred by the interruption in collecting debts in Pennsylvania, and by the sacrifice of property taken in execution, and sold by the sheriff at public auction in Philadelphia, where a great number of books in sheets (among which was a part of the new edition of Porcupine's Works) were sold, or rather given away, as waste paper; so that, the total of what has been, and will be, wrested from me by Rush, will fall little short of *eight thousand dollars*.

To say that I do not feel this stroke, and very sensibly too, would be great affectation; but, to repine at it would be folly, and to sink under it would be cowardice. I knew an Englishman in the Royal Province of New Brunswick, who had a very valuable house, which, was, I believe, at that time, nearly his all, burnt to the ground. He was out of town when the fire broke out, and happened to come just after it had exhausted itself. Every one, knowing how hard he had earned the property, expected to see him bitterly bewail its loss. He came very leisurely up to the spot, stood about five minutes, looking earnestly at the rubbish, and then, stripping off his coat, "*here goes*," said he, "*to earn another!*" and immediately went to work, raking the spikes and bits of iron out of the ashes. This noble spirited man I have the honor to call my friend, and if ever this page should meet his eye, he will have the satisfaction to see, that, should it be impossible for me to follow, I, at least remember his example.

In the future exertions of my industry, however, pecuniary emolument will be, as it always has been with me, an object of only secondary consideration. Recent incidents, amongst which I reckon the unprecedented proceedings against me at Philadelphia, have imposed on me the discharge of a duty, which I owe to my own country as well as this, and the sooner I begin the sooner I shall have done.

On Monday, the 24th instant, therefore, I shall publish the first number of *a periodical work*, which, as it is intended to assist the public view in the inspecting of various tenebrous objects, will be called, and not, I presume, improperly, a *Light*; and, as the appearance of this light must be attributed wholly to the Philadelphian phlebotomist, gratitude will sanction the propriety of fixing to it the name of *Rush*. Thus, while the great literary luminaries of this enlightened nation emit their effulgence through vehicles which they most significantly term the *Aurora*, the *Star*, the *Constellation*, the *Comet*, or the *Sun*. I am content that my glimmering efforts should steal forth under the appellation of the

Rush-Light.

I must, nevertheless, do myself the justice to assure the public, that, with the Rush-Light in his hand, any one (if the poor soul be not stone blind) will be able to see a good many very pretty things, which notwithstanding the splendor of the grand luminaries above-mentioned, would, without the aid of my little taper, remain hidden from him all the days of his life.

To say what will be the *subject* of the Rush-Light, would, at this time be impossible, and were it possible it would be useless, It may not, however, be amiss to observe, that as Rush is, in some sort the father of the work, a preference will certainly be given to *him and his cause*. These will, indeed, occupy a considerable portion of the three first numbers; and as the matter is already prepared for the press, these numbers will follow each other as speedily as may be. Of the succeeding numbers one will be published on the 15th, and one on the *last day* of every month.

The Rush-Light, notwithstanding the example of the patriot to whom it owes its sur-name, will never lay it down as a maxim, that *cringing for a lucrative post* is the best proof of a love of *independence*, and therefore, it asks for neither patronage nor subscribers.

Each number will contain 48 octavo pages, never less, and sometimes more, and will be enveloped in a blue wrapper, in the magazine style. The printing will be executed by *Messrs. G. and R. Waite, of New-York*, upon excellent paper, and *the best type in America*.

The price of each number will be a quarter of a dollar. To booksellers at a distance the following are the terms of sale: He who pays cash for twelve copes will be allowed three over; twenty-five copies, eight over; fifty copies, twenty over; one hundred copies, fifty over; and the like in proportion for any intermediate number; but none will, on any account, be sent out of New York, till the *cash* is received. To gentlemen who wish to have single numbers sent on to them by *post*, the following information may be useful. The postage of a single number for any distance not exceeding 50 miles, will be three cents; for any greater distance not exceeding 100 miles, 4 and one half cents; for any distance above 100 miles, six cents.

TO THE

HOLDERS OF

Military Land Warrants,

FOR THE PURPOSE OF LOCATING.

JAMES E. SMITH, as early as the 2d of Sept. shortly after his return from viewing the Military Land, offered his service to the holders of Military Land Warrants for the purpose of classing, registering and locating them, in consequence of an arrangement made with Mr. James Johnson in July preceding, on the land, for the purpose of exploring the sections in the whole survey. This business having been carried into compleat effect by Mr. Johnson, with the assistance of an intelligent inhabitant of that country, they having taken notes descriptive of the situation, soil and natural advantages attached to each section in the whole survey. Mr. Johnson being now here with those notes, together with the said J. F. Smith having a complete copy of the Surveyor General's return, made to the Treasury Department of the Township surveys.

Being thus informed, the subscribers, jointly, offer their services to the holders of warrants of the above description, to receive, register and locate, for which one tenth part of the land located will be required as a compensation—for locating where the registry is already made, as may be hereafter agreed on by applying to either of the subscribers. Such of the honorable the members of Congress as may now hold, or may receive warrants from their friends before the 3d of March next, by addressing a line to either of the subscribers, through the medium of the Post Office, will be waited on agreeable to their appointment.

WATER-OFFICE.

Centre Square, Febeuary 5, 1800.

IN compliance with the instructions of the Committee for watering the city, and with my own inclinations, every possible admittance and information has been given to those citizens who have visited the Works during their progress. The Engines are now arrived, and are immediately to be put up, and it is hoped that it will be thought reasonable and just, both to the Public, and to the Contractor for the Engines, that the workmen should not be interrupted. As a very few months will fully gratify the curiosity of the citizens, by shewing them the Engines in full operation, a temporary exclusion of all visitors from the Engine houses cannot appear improper.

For Nervous Disorders, Female Complaints, Gout in the Stomach, Melancholy, Seminal Weakness, loss of Appetite, Bilious Disorders, Inward Weaknesses, Indigestion, Obstinate Gleets, Juvenile Indiscretions and Premature Old Age, and every other symptom of extreme debility, which are the consequences of a Dissipated Life—excess of Pleasure or Grief—Heat or change of Climate—Immoderate use of Tea, Spirituous Liquors, or any Intemperance—Bad Lyings-in—Diseases incident to Young Girls and Women at a certain period of life—

The Cordial Restorative Balsam

Is recommended as a Medicine of specific and unparalleled virtues for the immediate relief and speedy and permanent cure of the above disorders, having stood a trial of many successful years, during which period many thousands of both sexes have been restored from the brink of the grave.

This Balsam is particularly adapted to weak female constitutions, as well as to phlegmatic habits in general; it acts powerfully as a nervine, not only to the weak stomach, but to the whole nervous system! corrects a vitiated appetite and digestion in the first passages, and assists wonderfully in recovering the tone of the urinary and genital organs:—Hence its efficacy in the most obstinate seminal gleets in men, and corresponding weaknesses in women; and hence it will contribute more safely, surely and honourably towards conjugal happiness, than any of those irritating, diabolical compositions, which are so shamefully administered to the unwary.

It is earnestly recommended to those ladies, who from repeated and difficult labours are afflicted with weaknesses and infirmities; in which cases it is highly useful, strengthening at the same time the stomach, the back, the weakened organs, and the *whole constitution.*

Those, who in advanced life, feel the consequences of *youthful excess*, or unfortunate youth, who have brought on themselves a numerous train of evils, will by the use of this find themselves restored to health and strength, and all the melancholy symptoms removed, which are the general effects of such causes.

For whether the system has received a shock, and is debilitated from imprudence or inattention in the earliest part of life, or is sinking under the advance of years, a few doses of this medicine will afford immediate assurance of returning health and strength, by giving tone to the muscular system, and organs of digestion, and by renovating the whole constitution.

To the young it will afford lasting health, strength and spirits, in place of lassitude and debility: and to the aged and infirm, it will assuredly furnish great relief and comfort, by gently and safely invigorating the system; but if it be in the power of medicine to gild the autumn of declining years, and calmly and serenely protract the close of life beyond its narrow span, this Restorative is capable of effecting that grand desideratum.

Constitutions relaxed, weak or decayed, in men or women, are under the immediate influence of this Restorative.

Old coughs soon relieved and speedily cured.

Poverty of blood and emaciated limbs, will ere long meet the happiest change; the chill watery fluid become rich and balsamic, and the limbs be covered with flesh, firm and healthful.

It will no doubt be acceptable to the reader, to see accounts of some of the remarkable cases and cures which have been performed by this truly invaluable medicine, in the disorders for which it was invented; he has therefore selected a few of such cases as have come within his own immediate knowledge, which are published and may be had (gratis) at any of the places where the medicine is sold

Prepared (only) by the Inventor and sole Proprietor, Dr. James Church, at his Dispensary, 137, Front street, near the Fly-market, New-York—and sold by Messr. H. & P. Rice, 16, South Second Street, Philadelphia.

FROM A CORRESPONDENT.

It ought to be remembered that the great object with the antifederalists now, is the election of Mr. Jefferson as President of the United States, in opposition to Mr. Adams. As to the cause of France, they care nothing about it, any farther than they can make it subservient to their own views; more especially since the late change in that government, *which they confessedly do not understand*, although they no doubt teaze the promoters of it with professions of friendship.

Notwithstanding the professions of the leaders of the party to the contrary, they bear an implacable hatred to our constitution, as well as to the measures of the government; and conceive that the only way to effect a change in both, is to get such men into power as think with themselves. In this State they succeeded at the late election, owing to lies and falsehood on their part, and supineness on the other, and the consequences are, and will be severely felt.

The antifederalists may preach up the virtues of their candidate, but the writer of this will consider the day on which they succeed in their election, as the commencement of a revolution. Mr. Jefferson may be a good man, but he is a very bad politician; and would appear more so, when surrounded with a host of sycophant democrats. He does not sufficiently reflect, that there is a portion of every community who are opposed to laws and good government, because they are a restraint on licentiousness, and who are made use of by designing men to promote their own interested views.

MR. FENNO,

The Aurora of this morning contains several accounts of a fracas which took place in the house of representatives on the 20th instant. The accounts are given in the form of extracts of letters from Lancaster. Who are the authors of those letters we know not. We shall take steps to discover them. In the mean time we think it a proper respect to our fellow citizens to inform them, that a more *false and infamous libel* never was attempted to be imposed on the public. For ourselves we smile contemptuously on the authors and propagators of the calumny.

SAMUEL W. FISHER.
MICHAEL KEPPELE.

Members of the house of representatives of the legislature of Pennsylvania for the city of Philadelphia.

Lancaster, 24th Feb. 1800.

The Editors of the Aurora assert that the vessel of their masters engaged by Captain Truxton, beat that officer, and that he saved himself by flight. It is natural that these people should be incensed at the *leze egalité* of a frigate disturbing the *repose* of a republican ship of the line.

That peaceable, good man, Monsieur Talleyrand, found the capture of L'Insurgente *almost hostile*. It will be very agreeable if he should deem the destruction of his *Volontaire* quite so.

A Philadelphia advertisement, which begins thus, "TO THE LADIES!" led the reader to suppose that some momentous truth or some useful advice was about to be addressed to the fair sex by some affectionate mentor. What was the surprise when it appeared, on examination, to be merely an enumeration of the virtues of a *cosmetic*. For "a *Lady*, lately from Europe, respectfully informs, &c. that she has brought with her a *composition*, the finest preservative for the skin ever found. If used at an early age, they may live to an hundred and never have a *wrinkle*. In winter it keeps the skin from chopping. In summer it keeps the skin from tanning. It takes off freckles or any dryness that may be on the skin. *Paint*, used without this, is very pernicious. —I have known in my country," the ingenious *composition* Lady proceeds "ladies of the first rank, who have known the benefit of it, and would not be without it for any consideration." It is thought that the most careless observer, in strolling the streets, will remark many ladies, whose ruddy faces demonstrate that *they* would not be without paint for any consideration. A rustic young fellow from some of the New England mountains, where indeed men have very little skill or discernment, told me he was absolutely at a loss to distinguish in the streets a modest woman from —— a lady of dubious, or scorched reputation. Because the former, with great judgment and decency it must be confessed, by the arts of painting, *transparent* drapery and expressive glances assimilates herself precisely to the appearance of the latter. It is recommended to the Lay Preacher of Pennsylvania to sermonize against *face painting*. A cheating, uncleanly and unhealthy practice. He may find an apt text in the book of Genesis. It describes the effect, which a meretricious appearance had upon the mind of a reflecting patriarch. "When Judah saw her, he thought her to be an *harlot* because she, *covered* her face."

*** *Mr. Ewing's letter will appear in the Gazette of to-morrow.*

It does not appear that the man of war engaged by Captain Truxton, came out in consequence of any challenge. On the contrary, it appears that the two vessels met by accident; and as the Frenchman first fired upon captain T. the charge of *rashness* set up by certain persons, falls to the ground.

To the People *of* Northampton County.

What think ye of GOVERNOR M'KEAN, *now?*

In the last paper was published his reply to an address of the Senate of Pennsylvania, which, if you have read, I recommend to your attentive perusal; you will find in it, the following paragraph—"*If any veteran of the American war has been displaced, after a long enjoyment of office, others of, at least equal* PATRIOTISM AND TALENTS *have been brought from retirement into the public service.*"

Were this declaration of Mr. M'Kean's founded in truth it might possibly afford some apology for his unprecedented conduct, in removing many of the most faithful officers in the commonwealth. But unfortunately for the Governor and his advocates, the fallacy of his assertions in this respect, is clearly demonstrable in every county of the State which has experienced the effects of his revolutionary system.

In Chester county Col. Williams Gibbons, a man whose integrity and abilities in office have never been even questioned, and whose virtuous services in "*American war*" will be remembered with gratitude when Thomas M'Kean shall have ceased to be the Governor of Pennsylvania; this worthy character (who by the bye had not enjoyed the office of Prothonotary more than six or seven years) was superceded by a youth, who at the commencement of the revolution, was probably unborn—But be it known that this lucky young gentleman is a branch of the wealthy and republican family of the *Heisters*; of course possessed "*at least of equal patriotism and talents*" with the veteran Col. Gibbons, and therefore his sagacious *Excellency* has thought proper to bring him "*from retirement into public service.*"

Some of you may recollect a little insignificant creature, that had scarcely wit enough to dress himself, who a few years ago came into this county and followed the law at Allentown, but soon gave over the chase and emigrated hence, nobody knew whither—Yet, strange to tell, this man of "*Talents,*" this great secluded "*Patriot,*" has been found out in his "*retirement,*" by our omniscient Governor, "*brought into the public service,*" as clerk of the sessions in Cumberland county.

With regard to the propriety of the change which has been in this county, I shall make no remarks; you are all qualified to judge for yourselves—I will only observe, that if you are dissatisfied with it, you have nothing to reproach these persons with, who opposed the election of his excellency, for they warned you of what has happened in the most plain and emphatical terms; but you regarded not their salutary admonition.

These samples of Mr. M'Kean's removals and appointments, will enable you to form a pretty accurate opinion of his excellency's ideas of "*Patriotism and Talents,*" and exhibit also charming specimens of those inestimable blessings which (it was foretold by our scramblers for office) would abundantly flow from his beneficent administration.

"*Oeh! 'tis a sweet thing to be free,*"

CONGRESS.

HOUSE OF REPRESENTATIVES.

TUESDAY, February 25.

The bill intituled "An act to continue in force an act concerning certain fisheries of the United States, and for the regulation and government of the Fishermen employed therein, and for other purposes as therein mentioned," was read a third time, and upon the question Shall this bill pass?

Mr. Macon opposed it, on the ground that no peculiar favour should be granted on the exportation of one article of provision more than another—and

Mr. Smith advocated it, as forming a nursery for our Seamen—and replied generally to the observations of Mr. M. when the question on passing the bill was taken and carried—ayes 51.

Mr. Harrison, from the Select committee to whom were referred the amendments of the Senate to the bill "in addition to the act intituled an act for regulating the grants of lands appropriated for Military Services, and for the Society of the United Brethren for propagating the Gospel among the heathens," reported, that it would be proper to disagree to the first amendment of the Senate, and to agree to the other amendments; in which the house concurred.

Mr. D. Foster, from the committee of claims, made a report on the petitions of Temple Elliott, William Boyce and Simon Somers, who severally prayed for grants of land from the United States, in consideration of services performed in the Virginia line of the army during the Revolutionary War.—A report on the petition of the said Temple Elliott, was heretofore made, to which the committee express an opinion that the house should agree, and that the same decision which shall be adopted on Mr. Elliott's petition, shall be applied to the other petitioners.

The report was read a first and second time, and committed to a committee of the whole house, and made the other of the day for to-morrow.

Mr. Otis presented a petition of Gilbert Dench, which having been read, he moved to refer to the Committee of Claims.

Mr. D. Foster opposed the reference, and the motion was negatived, only 26 members voting for it.

Mr. Champlin called for the order of the day on the report of the committee of Claims on the petition of the Corporation of Rhode Island College; and upon the question, will the house now take that subject into consideration, it passed in the negative.

Mr. Livingston then called for the order of the day on the message of the President relative to the requisition for, and delivery up of, Thomas Nash, alias Jonathan Robbins; and the house having resolved itself into a committee of the whole on that subject—Mr. Edmond in the chair—

Two resolutions having been heretofore referred to the committee (Mr. Bayard's and Mr. Livingston's) a debate arose upon the point of order which should be first taken up—when,

Mr. Sedgwick (Speaker) moved that the resolutions of the hon. gentleman from New-York, be first taken into consideration, which was carried; ayes 48, noes 32.

Mr. Livingston's resolutions having been read.

Mr. L. rose, and after expressing a wish, that a candid and impartial inquiry and decision should take place, upon so serious a question, which involved merit or censure, upon the conduct of a public officer, proceeded to the examination of evidence. Having begun to read a printed deposition of Jonathan Robbins, from a newspaper, wherein he swears he is an American, was born in Danbury, state of Connecticut, was impressed from on board an American vessel by the British frigate Hermoine, &c.

Mr. Bayard rose and objected to the reading of the paper, upon the ground that it could not be received as evidence by the committee—this objection caused a long debate as to the point of order in which Mr. Livingston said, he did not wish to introduce it as evidence—he did not believe a word contained in it, and thought it only a defence set up by Robbins to avert that trial and punishment which awaited him—Mr. L. said, his only object was, to prove that Robbins had *said* he was an American citizen—was impressed, &c.

The chairman at length decided that the gentleman could not be permitted to read the paper.

Mr. Gallatin appealed to the committee, and upon the question, Will the committee adhere to the decision of their chairman, it passed in the negative, ayes 39—noes 48.

The committee then rose, reported progress, and obtained leave to sit again.

A message was received from the Senate, by Mr. Otis, their secretary, informing the House, that the Senate had receded from their amendment disagreed to by this House to the bill providing for a second Census, or enumeration of the inhabitants of the United States—and also informing the House, that the Senate adhered to their amendment disagreed to by this House to the first section of the bill in addition to the act regulating grants of land for military services, &c. and requested a conference with this House on said disagreement and adherrence, and had appointed a committee for that purpose on their part.

The house took up the message, agreed to a conference, and appointed three managers on their part.

On motion of Mr. Gallatin, the house adopted a resolution, instructing the committee appointed on the subject of public lands, to prepare and report a bill appropriating a tract of land, sufficient to compensate the Canada and Nova Scotia Refugees, and regulating the mode in which their respective bounties for land shall be located.

On motion of Mr. Gallatin, the house also came to a resolution, empowering the clerk, with the approbation of the speaker, to employ such additional assistance in his office, as may be deemed necessary during the remainder of the session, to be compensated out of the money allowed for contingent expences of the House. Adj'd.

At a meeting of the commissioners, appointed in and by an act of the Legislature of the State of New-York, passed 6th April, 1798, entitled "An act to cede the jurisdiction of certain lands in this state to the United States," held at the City-Hall of the city of Albany, on Tuesday, the 11th February, 1800.

PRESENT.

His Excellency John Jay, Esq. Governor.

The Hon. Stephen Van Rensselaer, Esq. Lieutenant Governor,

The Hon. Robert R. Livingston, Esq. Chancellor,

The Hon. John Lansing, Junior, Esq. Chief Justice.

His Excellency the Governor informed the Board that fortifications had been erected, partly at the expence of the United States, and partly at the expence of this State, on Governor's Island and Oyster Island. That he was informed that some fortifications would be judged requisite on Bedlow's Island, but nothing of importance had as yet been done on that Island. That these fortifications being for the defence of the port and harbour of New-York, he submitted to them whether the jurisdiction of those islands should not be ceded to the United States, in pursuance of, and within the limitations prescribed by the statutes of the United States, and of this State, on the subject.

His Excellency further informed the Board, that directly after the passing the act of this State authorising such cessions, he had sent a copy of it to the Secretary at War, and requested him to designate the places in and about the city of New-York, which it would be judged necessary to fortify, to the end that a proper cession of jurisdiction relative to such places might be made. That he has not received such information from the Secretary at War, which he presumes may be imputed to the question whether this State would not adopt the propositions of the United States relative to balances.

That understanding from some of the members of the Legislature, that a bill was preparing for adopting those propositions, and with a probability of success; and that a cession of the jurisdiction of the places already fortified, would be necessary to be made by the 15th of this month, he convened all the commissioners, except the Mayor of New-York, who was at too great a distance to be summoned, and to arrive here in season.

The board then proceeded to the further consideration of the subject, and after some time spent thereon, it was decided on as follows:

The Honorable the Lieut. Governor gave his assent to the proposition for ceding to the United States, the jurisdiction of the Islands in the North and East rivers, near the city of New-York, commonly called Governor's, Bedlow's, and Oyster Islands, for the purpose of erecting fortifications thereon, for the defence of the port and harbor of New-York.

The honorable the Chancellor objected to giving his assent, and delivered his reasons in writing, in the words following, to wit:

Because the law having passed nearly two years ago, when the Legislature were apprehensive of an immediate war, there is reason to suppose that now, when the danger is no longer apprehended, they would not choose to invest so great a power in the commissioners.

Because Governor's Island, containing about seventy acres of land, Congress may establish such a government in it, and give such privileges as may interfere, at some future period, with the essential political and commercial interests of the city. The constitution of the United States setting no limits to their power within places subject to their jurisdiction.

Because, supposing the islands to be the only points from which the city of N. York can be defended, if the exclusive jurisdiction is ceded to the United States, and they should neglect to defend the same, the city must be left totally defenceless.

Because this being a matter purely in the discretion of the State, and not claimed of right by Congress, unless the advantages to be derived from it are very evident, the state cannot justify a relinquishment of any part of their territories.

Because, as members of the union, we are entitled to protection and defence, without being compelled to purchase it by a relinquishment of any of our rights.

Because, though the law, under which we sit, has been in force nearly two years, yet we never have, till five days before it must be carried into effect, been consulted on the subject, nor had any oppurtunity of making the enquiries on which our judgment should be founded, so that it becomes impossible to comply with the terms of it, by conveying by metes and bounds, and we are thus driven, if we convey at all, to give the whole of the islands, though some parts of them may be unnecessary for fortifications.

Because, having no surveys or plans before us, we are unable to say, whether the islands proposed to be ceded are the spots upon which fortifications may be most advantageously erected for the defence and safety of the city.

Because the Mayor of the city of New York, who may be supposed best to understand its interests, has not been called upon to give his opinion on the subject.

The honorable the chief justice also objected to giving his assent, and delivered his reasons in writing, in the words following, to wit:

Because, the Mayor of the city of New York, who is one of the commissioners, has not been notified to attend. The evident intention of the law, which has vested in the commissioners a discretion, being that it should be exercised jointly, though in the result three may make the cession.

Because, the commissioners are not possessed of any plan or system of defence, or survey, from which the expediency of making such cession, as connected with the only objects on which the commissioners are authorised to act, the safety and defence of the city and port of New York, can be inferred. The few days in which the commissioners are called upon to determine on this important measure, preclude the possibility of obtaining that accurate information which is necessary to direct the exercise of the discretion vested on them by law.

Boston, February 19.

We learn from Newport, that the United States frigate Boston, of 32 guns, capt. Little, has captured and sent into Newport, a large French letter of marque ship, pierced for 32, and mounting 20 guns, from Cape Francois, for Bourdeaux. The prize is expected here the first fair wind.

The above prize, we learn, is commanded by Lt. Haswell. She has a very rich cargo of coffee; and it is expected is a good prize. Reports mention her to be the property of Toussaint: and that in consequence of her capture, the General Greene frigate had been detained at Cape Francois. But these are mere reports.

The keel of the Massachusetts 74, to be built in this town, has arrived at the Navy yard—it is in five pieces; and cost 500 dollars. Vast quantities of timber for plank, and other materials are daily arriving.

The nervous, debilitated, or sedentary, whose diseases have in a great measure baffled the powers of medicine, would do well in making trial of

The American Botanical Tea,

which need only to be taken to acquire universal approbation; not only for its balsamic and restorative properties, in all decays from age, intemperance or disease; and in preserving a good constitution and mending a bad one, but for its claims to public favor, as a pleasant and wholesome breakfast; which will be found infinitely superior to Foreign Tea. Artists and others whose professions require a steady hand, will find great relief from the use of this vegetable diet, but particularly those who lead a sedentary life

A package at 75 cents will last one person for breakfast, nearly one month.

It is sold wholesale and retail only by the inventor and sole proprietor, Dr. James Church, 137 Front street, New York; Messrs. H. and P. Rice, 16 South Second street, Philadelphia; and Mr. Rice, Baltimore.

A SEASONABLE ARTICLE

JUST RECEIVED,

AND FOR SALE

By WILLIAM Y. BIRCH,

STATIONER,

No. 17 South Second Street,

HAMILTON's ELIXIR,

A SOVEREIGN REMEDY

For Colds, obstinate Coughs, Catarrhs, Asthmas, Sore-throats, and approaching Consumptions.

THOUSANDS are too well acquainted with the nature and effects of empirical medicines daily offered for the cure of the above complaints; dear bought experience has taught them that oily and heating medicines joined with strong opiates (or sleepy drugs) repeated doses of which, flatter and deceive the patient for the present, by procuring momentary ease; experience, I say, has taught thousands that the common opiates and balsams, as they are called, finally aggravate every disorder of the breast and lungs in their most distressing symptoms; that they load the stomach and impair the digestion, inflame the whole system, increase the difficulty of breathing, and excite fever.—But the qualities of this valuable discovery are evinced by perfectly opposite effects. A SINGLE TRIAL WILL PROVE that it restores the determination of the fluids to the surface of the body, and brings on the common, healthful perspiration; that it dislodges and evacuates the tough, viscid phlegm, or mucus, strengthens the weakened vessels of the lungs, sheathes the acrimonious humours which irritate the lungs, and finally discharges them. Thus striking at the root of the disorder, the symptoms are of course, effectually and permanently conquered, the reverse of common medicines, which weaken the constitution and give strength to the disorder, for the sake of moderating for the present, some of its painful effects.

TO PARENTS

Who may have Children afflicted with the HOOPING COUGH.

This discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorder to which children are liable; the Elixir is so perfectly agreeable and the dose so small, that no difficulty arises in taking it.

Dr. HAMILTON's

Genuine Essence and Extract of MUSTARD.

For Rheumatisms, Gout Palsey, Sprains, &c. a great number of attested cures may be seen at the place of sale Dr. Hamilton's Grand Restorative for constitutions debilitated by intemperance of any kind; and for the cure of Nervous Complaints, Inward Weakness, Obstinate Gleets, Fluor Albus in women, &c.

Hamilton's justly celebrated Worm Lozenges, the infallible Itch Ointment, Dr. Leroux's Indian Vegetable Specific for Venereal Complaints, Ague and Fever Drops which had never failed effecting a cure, Dr. Hahn's Antibilious Pill, ditto Corn Plaister, the Persian Lotion for the face and skin, Gowland's Lotion, Church's Cough Drops, Anderson's Pills.

THE DAMASK LIP SALVE

Is recommended (particularly to the Ladies) as an elegant and pleasant preparation for chopped and sore lips, and every blemish and inconvenience occasioned by colds, fevers, &c. speedily restoring a beautiful rosy colour and delicate softness to the lips.

THE RESTORATIVE POWDER

FOR THE TEETH AND GUMS.

This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, absorbing all that acrimonious slime and foulness, which suffered to accumulate, never fails to injure and finally ruin them.

☞ Those who wish to procure the medicines genuine, must apply ONLY as above.

Wholesale purchasers will receive a liberal allowance by application to LEE & Co. Baltimore, who have obtained the general agency for the United States.

FOR THE

CURE OF THE RHEUMATISM,

Palsy, gout, lumbago, white swellings, sprains, bruises, numbness, chilblains, acute chronic rheumatism, rheumatic gout, is recommended

Dr. CHURCH's

Chemical Extract and Essence of Mustard,

Prepared only by Dr. James Church, at his Dispensary, New-York.

There perhaps is no malady to which the human frame is subject, that has had more applications of various kinds administered as remedies, than the Rheumatism: nor is there scarce a disorder that has resisted with like force the attempts made to remove it.

The virtues of the Essence and Extract of Mustard, will be found to equal, if not excel those of any other medicine whatever, in the cure of the above complaints. The following is copied from the London Pharmacopiæ and is the opinion of the College of Physicians concerning this valuable Drug.

"Mustard, by its acrimony and pungency; stimulates the solids, and attenuates viscid juices, and hence is deservedly recommended for exciting appetite, promoting digestion, encreasing the fluid secretions; also paralytic and rheumatic affections."

These medicines contain all the virtues that can possibly be derived from that excellent and powerful vegetable. The Essence is prepared in a fluid state, and is singularly efficacious as an external application; common rheumatisms, Sprains, Chilblains, Stiff Necks, swelled joints, Bruises, Frozen Feet, local pains in any part of the body or extremities, Swelled Faces, chopped hands, &c. will be found to yield to its benign influence in a few hours. The Extract is prepared in the form of pills, and being an internal remedy is an amazing additional improvement, taken in the severest cases of the Rheumatic Gout, Chronic Rheumatism, Palsy, fixed pains, Lumbago, Numbness, Gouts, &c.—When the essence is externally applied it promotes gentle perspiration, and operates very mildly by urine; they also amend a weak digestion, and strengthen the stomach.

Sold as above with printed directions for use. Where also may be had, CHURCH's COUGH DROPS, a medicine unequalled by any in the world for the cure of Coughs; Colds, Asthmas and Consumptions.—Also by Mr Price, Baltimore, and Messrs. H. & P. Rice, 16, South Second Street, Philadelphia.
